8.7	fill password field with a valid data						
9	Fill all fields with valid data (using email address)						
9.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
9.2	fill first name with a valid data						
9.3	fill surname with a valid data						
9.4	fill age with a valid data						
9.5	fill gender with a valid data						
9.6	fill email address field with a valid email address						
9.7	fill password field with a valid data						
10	using mobile number with country code						
10.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
10.2	fill first name with a valid data						
10.3	fill surname with a valid data						
10.4	fill age with a valid data						
10.5	fill gender with a valid data						
10.6	fill mobile number field with a valid mobile number (+201008977574)						
10.7	fill password field with a valid data						
11	using mobile number without country code						
11.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
11.2	fill first name with a valid data						
11.3	fill surname with a valid data						
11.4	fill age with a valid data						
11.5	fill gender with a valid data						
11.6	fill mobile number field with a valid mobile number (01008977574)						
11.7	fill password field with a valid data						
12	using mobile number without country code						
12.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
12.2	fill first name with a valid data						
12.3	fill surname with a valid data						
12.4	fill age with a valid data						
12.5	fill gender with a valid data						
12.6	fill mobile number field with a valid mobile number (01008977574)						
12.7	fill password field with a valid data						
12	using a mobile number with Arabic digits						
12.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
12.2	fill first name with a valid data						
12.3	fill surname with a valid data						
12.4	fill age with a valid data						
12.5	fill gender with a valid data						
12.6	fill mobile number field with a valid mobile number (+٩٦٧٧٥٧٤)						
12.7	fill password field with a valid data						
13	using arabic letters in first name field						
13.1	navigate to the sign-up page						

13.2	fill first name with a valid data (محمد)	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
13.3	fill surname with a valid data						
13.4	fill age with a valid data						
13.5	fill gender with a valid data						
13.6	fill mobile number field with a valid mobile number						
13.7	fill password field with a valid data						
14	using arabic letters in surname field						
14.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
14.2	fill first name with a valid data						
14.3	fill surname with a valid data (ابراهيم)						
14.4	fill age with a valid data						
14.5	fill gender with a valid data						
14.6	fill mobile number field with a valid mobile number						
14.7	fill password field with a valid data						
15	validate password (6 characters)						
15.1	navigate to the sign-up page	Account created successfully, confirmation code sent to the user's email if you're using email address	Ready to Test				
15.2	fill first name with a valid data						
15.3	fill surname with a valid data						
15.4	fill age with a valid data						
15.5	fill gender with a valid data						
15.6	fill mobile number field with a valid mobile number						
15.7	Fill the password field with a valid password (containing alphanumeric characters, upper and lower case, digits, special characters) (ex: A1#b12)
